

FOOD SAFETY POLICY

LOLC Advanced Technologies (Pvt) Ltd located in Industrial Zone, Katuwana, Homagama is striving to be recognized as a Fortified Rice (with Curcumin, Bacopa & Centella, and Tea Catechin) manufacturer with safe, legal & authentic products. We also strongly believe that food can be assured through the combined effort of all parties participating in the food chain.

A strong management commitment is shown through the provision of required infrastructure facilities, equipment and human resources with proper training.

The documents and records related to the Food Safety Management System are maintained as per the requirements.

All identified hazards are controlled through the implementation of hygiene control operations and HACCP plans, satisfying applicable food safety requirements, including statutory and regulatory requirements & with mutually agreed food safety requirements of customers and consumers.

Implemented food safety management system is checked periodically through planned verification, internal /external communications and management reviews to continually improve and update the Food Safety Management System.
